DESCRIPTION

A unique property in Salzburg city, Gneis!

This light-flooded and friendly villa offers everything you could want from a home. Starting with the large double garage, this is very appreciated in Salzburg weather. The entrance is paved with noble fine stone. The facade in this area is made of high quality aluminum from the company Alucobond. In the entrance area there is a checkroom and a spacious study. If you go further, the living area opens up. With 102 square meters, this offers all the possibilities in interior design. The first floor is rounded off by a kitchen and a large storage room.

Upstairs are the sleeping quarters. The Master Bedroom has a dressing room and a bathroom. Here is a walk-in shower, electric toilet, bathtub and double sinks. Two bedrooms have access to the balcony. A bathroom and two more rooms perfect the living wing of the house.

On the top floor is the studio and the 360° roof-top terrace. The impressive view reaches from the Bavarian area over the Untersberg to the fortress high Salzburg.

In the bright basement is a wellness area. This has a sauna, massage table, bathroom with toilet and a fitness room. Here you can retreat after a long day. Work out or relax.

There is also room for a small bar and coffee maker. The laundry room and a storage room are practical.

The underfloor heating as well as underfloor cooling provide a pleasant indoor climate in every season. The owner & architect have succeeded in creating a showpiece here.

The spacious terrace with swimming pool in the garden invites you to swim and linger. The quiet lawn robot ensures a well-kept garden. The permanently installed Loxone sound system guarantees the right background music for every occasion. The pergola in the garden offers protection from sun and rain and the tool shed is practical for storing garden tools. The solar system on the roof and the geothermal heating system contribute to the environmentally friendly energy supply.

The villa is located in a cul-de-sac in the Gneiss district, absolutely quiet and private. The residential area offers many recreational opportunities. Whether at the Leopoldskroner Weiher, the Almkanal or in the Hans-Donnenberg Park, here you and your loved ones can be active.
